PNCN5N	Legal: 006S 007W 25 F		Out Date:	Owner: PRI
# 163	Name: <b>Parks Hwy</b>		Cause: Human	Admin:

Narrative: The Type 2 Team transferred command to a Type 3 organization at 1200. Warm weather caused smoldering and isolated torching in the morning. Clear skies and continuing winds kept the northeast side of the fire active with pockets of torching. Engines will continue to patrol for smokes with one Task Force designated for initial attack activity. Crews will monitor fire activity along the river and burnout around cabins as needed. Mopup was accomplished on hotspots discovered by the infracam. The weather is expected to remain dry for the next few days with southwest winds pushing the fire further east/northeast. Cabins and allotments on the Tanana River near the mouth of the Wood River are still threatened.
